Last week I had a flat tyre and realized it only when I was already on the road. I parked my car at the nearest parking lot and contacted Anish. I went back home and received a call from Anish informing me that vehicles inspection was done and all the tyres in my car needed to be changed. He suggested me the best tyres for my car with a great discount. I am happy to have saved a couple of bucks as he gave me a better and a cheaper option.

Thank You Anish for taking care of this on a personal level. You contacted me every step of the way, also made sure I reached home safe. Service is excellent and rate it 10/10. You can always rely on Al Saeedi Pro when it comes to your tyres and servicing.

Thank you for your services
