Service quality testimonial,

Dear Anishe, and Al Saeedi pro team Ras Alkhor.

Driving your car without AC in this summer heat feels like drawing in air.

I was driving my car to pick up my kids for the summer camp were suddenly the A.C start to be weak to become as hot as the air outside the car. The first one came into my mind is my car Dr. Anish. He assured me and connected me to the person in charge. Now my car is freezing cold, with no fear of the summer heat.

Thank you Anish for the continuous support for any car sudden problems. I will always recommend Al Saeedi pro to my family and friends for any car glitches or problems for quality service.

Dr. Nour Al-Kayem
